

Medical Weight Loss Program

Our goal is safe and effective weight loss. We use a combination of healthy diet, exercise, and if indicated, medication treatment and supplementation.

\$500 Initial Fee, this includes:

Initial visit with M. D.

EKG (electrocardiogram test of heart).

Biometric analysis.

M. D. lab review (lab costs not included).

Second visit with M. D. for follow up within 30 days (in office, video, or phone).

25% discount on one body contouring package during program if applicable.

\$150 Monthly program fee including follow up visit with M. D. (usually in office).

Patients who establish care here or are existing patients, receive a discounted initial fee if certain services have already been performed here. Extensive evaluations or records review fee is \$150/hr. Insurances do not cover medical weight loss services. Terms subject to change, and other terms may apply, inquire. Results may vary.

All sales final and due before service, including monthly program fee for continued service. Fee does not guarantee medication prescription. Any prescription is based on M. D. judgment regarding safety and results.
